

SILKVILLAGE HANDLOOM

TRAINING RESEARCH INSTITUTE Pvt.Ltd

About Silkvilleage

Silkvilleage Research Training Institute is a premier institution dedicated to preserving the rich legacy of Indian handloom while empowering artisans through modern education, innovation, and entrepreneurship. Our mission is to bridge tradition and technology, nurturing the next generation of weavers, designers, and textile entrepreneurs.

We offer hands on training in weaving, designing, dyeing, boutique management, and digital tools ensuring our students are equipped for both local craftsmanship and global fashion markets. With expert faculty, award winning mentors, and industry partnerships, we create pathways for sustainable careers rooted in heritage and driven by innovation.

At Silkvilleage, every thread tells a story of culture, creativity, and opportunity.

OUR MISSION

To preserve and promote India's rich handloom heritage to offer industry relevant textile and design education to nurture entrepreneurial talent and innovation to inspire sustainable and ethical fashion practices.

OUR VISION

To become a global center of excellence where tradition meets innovation, empowering artisans and youth to weave creative, sustainable, and impactful futures.

Handloom Weaving and Designing

Our Handloom Weaving and Designing course is a comprehensive program crafted to preserve the rich heritage of traditional weaving while equipping students with modern design skills. This course blends age old techniques with contemporary trends, providing a deep understanding of fabric construction, loom operation, and surface design.

Students gain hands-on experience in warp preparation, weft techniques, color theory, motif creation, and jacquard pattern development. Alongside practical weaving skills, learners are trained in digital textile design, enabling them to translate traditional art into innovative, market ready fashion products.

Whether you aspire to be a designer, artisan, or entrepreneur, this course empowers you with the creativity, technical expertise, and industry insight needed to thrive in the evolving world of textiles and handloom fashion.

Highlights:

- ✓ Live loom training with expert weavers
- ✓ Fabric analysis and design development
- ✓ Digital textile design software training
- ✓ Boutique management and product marketing
- ✓ Sustainable and ethical fashion principles

Electronic Jacquard Weaving and Designing

Our Electronic Jacquard Weaving and Designing course is designed to bridge traditional weaving artistry with advanced textile technology. This program offers in-depth training on electronic jacquard looms, enabling students to create intricate patterns and complex designs with precision and efficiency.

Learners will gain hands-on experience in computerized design development, fabric analysis, motif programming, and production techniques. The course also covers digital textile software, color theory, and applications in fashion and interior design. Ideal for students, designers, and professionals seeking to specialize in modern weaving methods, this course opens the door to innovation and entrepreneurship in the textile industry.

Online / Offline Designing Courses:

- ✓ Next Gen Textile Designing Digital Weave Craft
- ✓ Woven Worlds: Digital Textile Creation
- ✓ Tex CAD: The Art of Digital Fabric Design
- ✓ Modern Textile Designing with Software

Highlights:

- ✓ Fabric analysis and design development
- ✓ Digital textile design software training

Textile Dyeing and Printing

Our Dyeing and Block Printing course offers a vibrant journey into the world of traditional textile surface design. This hands on program covers natural and synthetic dyeing techniques, color mixing, fabric preparation, and various styles of block printing.

Students will learn to carve and use wooden blocks, apply resist and discharge techniques and create custom patterns on different fabrics. The course also includes training in color theory, fabric care, and eco-friendly practices.

Perfect for aspiring textile designers, artisans, and creative entrepreneurs this course blends heritage techniques with modern aesthetics.

Highlights:

- ✓ Fabric dyeing techniques (natural & synthetic)
- ✓ Traditional block carving and printing
- ✓ Color theory and fabric care
- ✓ Eco-friendly and sustainable practices
- ✓ Creative design development

Saree Styling and Knotting Techniques

Our Certificate Course in Saree Styling & Knotting Techniques is designed to explore the beauty, versatility, and elegance of the saree. This hands on program trains students in various regional and contemporary draping styles, knotting methods, and accessorizing techniques to enhance personal and professional styling skills.

Participants will learn to work with different fabric types, body shapes, and occasions from traditional bridal looks to modern fashion styling. This course is ideal for fashion students, stylists, boutique professionals, and anyone passionate about Indian fashion heritage.

Highlights:

- ✓ Regional & modern saree draping styles
- ✓ Knotting techniques and pleating methods
- ✓ Styling for events, photography & retail
- ✓ Fabric handling and accessorizing tips
- ✓ Practical, demo-based learning

Saree Starching and Polishing

Our Certificate Course in Saree Starching and Polishing offers specialized training in enhancing the finish, texture, and presentation of sarees. This hands on program teaches traditional and modern techniques for starching, polishing, and fabric care to achieve a crisp, professional look.

Students will learn the correct use of starching agents, fabric safe methods, and finishing processes suitable for cotton, silk, and blended sarees. This course is ideal for boutique workers, laundry professionals, textile artisans, and homemakers aiming to develop practical, income generating skills.

Highlights:

- ✓ Starching techniques for various fabrics
- ✓ Saree polishing and finishing methods
- ✓ Fabric care and maintenance
- ✓ Traditional and modern approaches
- ✓ Practical, job-oriented training

Transformative Outcomes

Upon successful completion of the course provided by
Silkvillage Training and Research Institute PVT LTD.

Learners will be able to:

- ✓ Explore diverse employment opportunities in handloom clusters, textile manufacturing units, fashion houses, and printing workshops.
- ✓ Demonstrate the skills required to qualify as a Jacquard textile designer in weaving mills.
- ✓ Develop and promote a personal brand focused on sustainable and handcrafted textiles.
- ✓ Establish and manage a boutique, saree styling studio, or saree finishing and polishing service.
- ✓ Exhibit proficiency in saree draping and knotting techniques across traditional and modern styling methods.
- ✓ Apply professional techniques in saree starching and polishing for value addition and finishing.
- ✓ Identify export potential and initiate ventures in the export of handcrafted, handwoven textiles.
- ✓ Function effectively as a printing specialist or dyeing technician in textile and fashion industries.
